PROJECT PORFOLIOS

NEAT
EASY
SIMPLE
QUICK

Fitting into whatever you designed.....

TYPE	Size mm	Thickness mm	Sheet Coverage
#2	6~9±10%	5 ±10%	1 s.f. (30cm x30cm)
#3	9~12±10%	8 ±10%	
#5	12~15 ±10%	10 ±10%	

Free Stones created from nature pebbles collected from riverbeds and island beaches, which are environmentally sound, recyclable, non-slip, everlasting and require almost no maintenance. Hand sorted for colour, size and thickness, individually pieced together and then bonded onto a mesh backing as a sheet of mosaic tile.

Free Stone pebble tiles are a popular decorative finish both in Taiwan and China due to the features of their durability, wearability, texture, range of color and many applications, easy to clean, low maintenance etc.

They can be used indoors and outdoors on driveways, patios, steps, pathways, swimming pools, showers, kitchen, flooring, fireplaces and countless other residential and commercial applications.
